Canuck Place Patient & Family Engagement Advisors provide patient and families with a peer-to-peer relationship to help navigate the healthcare system. They are also here to listen to your family's experience and hear your ideas and suggestions on how to improve Canuck Place programs and services. If you wish to remain anonymous, Sara and Dana will keep your input confidential.

Sara and Dana are part of the Canuck Place team and they are parents of children with medical complexity. They understand the journey, and their lived experience helps shape how they work with you.

## **They would love to hear from you:**

- Do you have feedback you would like to provide?
- Do you need advocacy and support in navigating the healthcare system?
- Are you interested in connecting with other Canuck Place families?
- Do you want to connect and share your family's experience?
